ABOUT ME

Junior back-end developer skilled in C#, ASP.NET and Entity Framework. Passionate about building clean, secure, and maintainable systems. Currently studying at SoftUni with a focus on full-stack web development and real-world project experience.

PROJECTS

Azaliq Flower Shop (SoftUni Project)

Link:

- tinyurl.com/azaliq-store

GitHub:

- github.com/edvinhubbyy/Azaliq.WebApp

Tech Stack:

- ASP.NET Core MVC, EF Core, SQL Server, Identity, Razor, SendGrid
- Built a full-featured flower shop web app with shopping cart, admin panel, and product management.
- Integrated SendGrid for email confirmations, added 2FA, ReCaptcha, Razor views, and product filters.
- Created a custom archive system for deleted users and orders.

ShiftTracker
